

Forever Moments

Prices & Packages 2026

Welcome

**Myself and my
wife Katie getting
married at the Mill
in Ballydugan**

Have a look at my packages and prices below. I offer photo, film and photo + film packages. Let's be honest, having a camera follow you around is awkward all things considered. Which is why my style leans towards capturing natural and candid moments in an unobtrusive way. Accompanied by relaxed poses and small guidance, it's your day not a photoshoot!

Every wedding is different and handcrafted to represent your personal love story. Through getting to know you as a couple I weave your personality and heart in, capturing your bespoke narrative. I pride myself in making my wedding films & photos about more than just how they look.

Josh :)

A romantic photograph of a couple in formal wedding attire kissing on a lawn at sunset. The sun is low in the sky, creating a warm, golden glow. In the background, a white house with multiple windows is visible.

FAQs

Ask Away!

How does your photo & film package work ?

I will organise everything! On the day I will be accompanied by a trusted photographer or videographer. I will lead your photos and together we will have a blast :) I do all the post production editing of your photos and edit your wedding film myself.

Do you record audio and use music ?

Yes! I believe these are essential and I weave it into your film to give it a greater depth. I record audio from the ceremony and speeches to work into your film. I use music based on your personal taste and use royalty free music unless specifically asked for a track.

What is your booking process ?

Typically after you enquire, We will talk through all the details of your day. I require a £200 deposit fee and a contract. Closer to the date again I find out all the logistical details and any last bits. Then you get married!
